NEW YORK LIFE

INSURANCE CO.

Branch Office, 25 and 26 Bryan Bl'k,

CHICAGO, ILL.

☞ Purely Mutual, Equitable, Progressive and Secure. Twenty-seven years of Business Experience.

Assets, - $21,000,000!

Safely Invested and rapidly increasing.

Within the last quarter of a century the business of this Company has embraced the acceptance of over ninety thousand men as members, the receipt of over $33,000,000 in premiums, the payment of nearly $8,500,000 in losses to the representatives of deceased members, and dividends actually returned (not promised) amounting to over $6,000,000 to the assured. At the same time the assets have accumulated and offer absolute security. The present business of the Company is represented in the receipt of ten thousand applications for Policies per annum, and an annual income of over $7,000,000.

All desirable forms of Insurance are granted on the most practical plans, embodying the well-known non-forfeiture feature originated by this Company in 1860.

In addition to the above a new feature has recently been introduced by this company called the "Tontine Investment System," which combines the advantages of the Tontine Annuity and Life Insurance. Upon this new plan it is confidently expected that the dividends will far exceed those now declared by any other Company.

Further particulars in regard to this and all other plans of Insurance will be cheerfully furnished upon application to

A PLAIN DUTY OF FARMERS.

From the Prairie Farmer.

While the thousands of communities of the West are at fever-heat over questions that may be said to belong to speculative farming, it will not do to be careless or indifferent concerning the practical duties which pertain to their profession. Whether transportation charges are high or low, the seasons come and go, each bringing its appropriate work, and that needs be, and must be attended to. Whether or not agriculture receives its just measure of attention from Legislatures and courts, the fields must be prepared and the seed planted and the harvest garnered.—Whether or not politicians "grab" increased salaries, squander the public domain, or stir up internal strifes, the orchards must be pruned, the insects fought, and the fruit gathered.—Whether or not speculators "corner" wheat, construct false bottomed bins, or deal in fraudulent receipts, the flocks and herds must be cared for, the diary looked after, and the pork and beef fattened. Farming is the business of the farmer, and it is just as honorable, just as dignified, as defending a criminal, forcing a bankrupt, delivering a Fourth of July oration, physicing a gluttonous patient, setting a broken leg, marrying a "spooney" couple, discussing total depravity, watering railroad stocks, or selling thread and tape, sugar and soap, wash-stands and writing-desks. To attend to it in a thorough and business-like manner is the one great essential to success. It requires more muscle than most other kinds of business, but no less brains—strong, dexterous hands and level, active heads. The ways for building up and developing the business, for promoting the welfare of those engaged in it, are numerous and varied. In fact we know of no profession in life that is so many sided; that has so many capabilities; that offers such scope, or that is dependent upon so many elements as farming. But in seeking to push one column on the onward march, it will not do to get to far in advance of the others, or from the base of supplies.

In working for organizations by means of clubs, associations and granges, it will not be well to lose sight of or neglect the old-fashioned agricultural societies that have so greatly stimulated competition, exchange and development in agriculture, horticulture and domestic arts. The agricultural fair is not a thing of the past, but is yet a living force. The list of proposed shows that we publish this week, tells the farmers of the Northwest that there is something to do this fall besides voting for resolutions and reading new declarations of independence. There is yet something to learn about growing the best crops of the best varieties, about the most approved manner of breeding from the best breed of animals, about new machinery, and something to be gained by contact with individuals practically engaged in the different branches of the same business as they appear in the competitive classes at the fairs.—Gentlemen of the granges and clubs, do not neglect the industrial fairs! Rather turn the machinery and influence of your organization in their direction for a few weeks. Take hold of them with your brethren, outside of either organization, in earnest. Not only visit them and exhibit at them, but help officer and manage them. In many localities they are sadly in need of your aid. They in turn will aid you in the educational, social and pecuniary advantages you are laboring for. In working at a peculiar lover do not forget another of the most important of the number by means of which, as a class, you propose to equal, or excel all other classes in intelligence, thrift and influence, as you now do in real importance. Do not be so wrapped up in regulating the commercial and political machinery of the town, county, State and nation, that that of your own immediate business may get rusty and out of repair.

FAULT-FINDERS.

The world is full of chronic fault-finders. Nothing can please them. They take delight in growling and grumbling over everything they meet. If anything is good, they complain because it is not better. Humanity has no bright side to these grumblers. It looks black, dreary, hopeless to them, from whatever point of view they examine it. They overlook the virtues of an individual, and hold up a single fault to judge his character from.—They denounce a party as corrupt because a few rascals disgrace themselves by unworthy acts. The church is false because a few hypocrites find shelter within it. The world is on the high road to destruction, and everything indicates the depravity of man.

We do not envy the happiness of these growlers. Their unhappy frame of mind is about the only pleasure they enjoy. It may sound paradoxical, but the social misery they create is to them a source of enjoyment. A single hopeful heart is worth a regiment of these fault-finders. Humanity has its bright side—beautiful and attractive to those who seek it. The world is alive with public and private virtue, and we should be ready at all times to foster and encourage this element of social comfort and public happiness.

LANDS

IN ARKANSAS.

Low Prices. Easy Terms.

The Cairo and Fulton Railroad Company has a Land Grant from the U. S. amounting in the aggregate to nearly two millions of acres. The road runs diagonally through the State of Arkansas, from the North-East to the South-West, passing through the city of Little Rock, and terminating at the Texas Boundary, where it makes connection with the R. R. system of that State. On the north it makes connection with the St. Louis and Iron Mountain Railroad, terminating at St. Louis. The road is 300 miles in length, and the lands donated by the Government are in alternate sections along each side of the line. The grant embraces a greater diversity of soil and greater variety of productions than can be found in the same distance in the U. S. The soil produces Fruits of all varieties, Small Grains, Timothy and Cotton. Stock Ranges are abundant.

THE CLIMATE

is temperate, having neither extremes of heat nor of cold.

FARMERS' COUNTY TICKET.

FOR JUDGE,
S. F. GREER.

FOR CLERK,
READ SPENCER.

FOR TREASURER,
R. H. PARK.

FOR SUPERINTENDENT PUBLIC SCHOOLS,
S. P. NICKEY.

HON. A. M. CAVAN, a member of the Twenty-Seventh General Assembly of Illinois, from Woodford county, was killed by being run over by the Southeastern road at Edgwood, on Thursday.

THE papers are just now making a good deal of fuss about the probable organization of the next House of Representatives, and some of them are very fearful lest Mr. Blaine may fail in his aspirations for the speakership. And suppose he does; will the election of some other man hurt anybody else than Mr. Blaine?

POLITICS in Ohio is fast assuming its old-time features of bitterness and vituperation, as the following, from a Republican paper in that State, will show.

Allen is seventy years old, and uncle of Senator Thurman. Allen for governor, Thurman for Senator, Noah's ork for the platform, and Methuselah for lieutenant governor; this will be the latest programme of the Bourbons.

THE civil authorities of Kentucky, it is said, are unable to cope successfully with the Ku-Klux, and will call on the general government for military assistance. We trust their call will be disregarded. Let them work out their own salvation. No class of people have made so great an uproar about "military despotism" as the Kentuckians, and now let them take care of themselves. If they can't exterminate a few hundred brigands, they had better return to a territorial form of government.

A prophecy from the Philadelphia (Pa.) *North American*:

It seems like a dream that Illinois is as populous as Ohio; that Missouri beats Indiana; that Iowa has gone ahead of Virginia, and that Kansas is likely to run a race with New Jersey. The swarming millions of the Republic appear destined to occupy and people the continent. Already they are more than half way to the Pacific in a solid mass. Once let the column stretch clear across and the wastes be occupied, and the mighty impact of the expanding force will be felt in Canada, Mexico and the West Indies. Those who think we have now more territority than we can occupy in a century are wofully mistaken. It will be done in half the time, and well and thoroughly done, too. Our prodigious railroad system is solving the problem day by day. The main line we have now through to the Pacific will be increased to four or five before 1880, and the exodus that has been so much felt in Germany and the British Isles will set in among the common people of all Europe and much of Asia.

With the contest in Massachusetts we have nothing to do. Doubtless there are better and there are worse men than General Butler in that State. But if he is the monster his opponents represent him, surely the good sense and decency of the people can be trusted to defeat him without this endless clatter and ado. But we protest against these continual political forays, which distract the attention and dissipate the intellectual force of the public mind, and draw the popular interest away from questions of greatest and most vital public concern. And the more our people refuse to notice these adventitious issues and intrusive adventurers, and fix their attention on topics of real and vital concern to the state and nation, the less we shall be troubled with artificial excitements and Butler raids.—*New York Graphic.*

GEN. STANLEY evidently rules his Yellostone exploring party with a firm hand. In addition to arresting Gen. Custar and making him march in the rear of his command, for some cause not made public, he ordered all the liquor in the camp destroyed, and it was done so promptly that not a drink was left an hour after the order was issued. Thirteen barrels were destroyed in all and the old drinkers are solacing themselves with drinking Worcestershire sauce.

AT the great Grange harvest gathering in Davenport, Iowa, on Tuesday, the last speech was made by an old farmer. He said he wanted the voice of one farmer at least heard at that gathering. Some one suggested that Judge Grant, who had just spoken, was a farmer. "Yes," went on the speaker, "so he was but if it hadn't been for Judge Grant, the lawyer, Judge Grant the farmer would have starved to death." A palpable hit and highly appreciated by the Judge was there.—*Exchange.*

BEEF AND BRAINS.

There is a tradition, probably derived from monkish times, that a student or learned man is also, of necessity, a sickly or sallow man, who despises the vain cares of eating and drinking. This is a grave and popular error. The very reverse comes nearer the truth. Scholars and savants are not always æsthetic feeders, but, unless prevented by sheer poverty, they are usually right hearty feeders—the principle being as true in study as elsewhere, that good work requires good eating. A senior wrangler may not be able to stow away quite so large a plate of beef as a coal-heaver, but he can dispose of a portion big enough to terrify any one in the habit of dining with Dio Lewis—which I take to be the American for dining with Duke Humphrey. "By their fruits ye shall know them." In all the literature born of American asceticism we see a thickness, a lack of color, produced by a lack of learning, beyond what the rest of our literature shows, inferior as even that may be when judged by an European standard. Nor is the matter mended when the writer or speaker endeavors to supply this want by a display of sonorous and incoherent bosh, which he and a portion of his public have a fatuity to take for poetical sentiment and oratorical ornament. But still more striking is the vulgarity of our ascetic literature, from the highest, in point of reputation and pretension, to the lowest. A large number of the old-world saints used to derive in former times—nay, some of them still derive at the present day—much of their odor of sanctity from very positive dirt. The holy friar is pretty sure to be also the dirty friar; his very name seems to denote filth.—In like manner there is a largely circulating ascetic or semi-ascetic literature among us, permeated by that most offensive kind of Philistinism, which, though narrow and ignorant, is, above all things, essentially and hopelessly vulgar. That in art all but a very few of the most erratic critics and artists are constrained, to however reluctantly in some cases, to admit. A long and sad series of proof points to a similar conclusion in literature, and shows that an attempt to remove the pure intellect entirely from the regions of sense will end by degrading rather than elevating it.

GERRIT SMITH AND MISS ANTHONY.

Gerrit Smith writes to Miss Susan B. Anthony "So you have not paid your fine; are not able to pay it; and not willing to pay it! I send herein the money to pay it. If you still decline doing so, then use the money, at your own discretion, to promote the cause of human suffrage." He says a good word for Judge Hunt, but holds that he "erred in allowing himself to look into the constitution." "What I complain of is that he did not hold as void, instead of arguing them to be valid, any words in the instrument which seemed to him to favor the disfranchisement of women, and consequent robbery and destruction of her rights. This worship of the constitution! how blinding and belittling! I would that every Judge who tends to this weakness (and nearly every Judge, yes, and nearly every other person tends to it) might find his steps arrested by the warning example of Daniel Webster. This pre-eminently intellectual man, whom nature had fitted to soar in the higher sphere of absolute and everlasting law, had so shriveled his soul by his worship of the constitution that he came at last to desire no other inscription on his gravestone than his shameless confession of such base worship. And all this, notwithstanding the constitution was in his eye the great bulwark of slavery!"

THE following, from the Chattanooga Times is too good to be lost: "There was somthething of a delicate and private nature going forward about the house visible to the commonest observer. But love and its devotees are proverbially blind. So he stayed and stayed until late in the evening, when one of our prominent physicians stepped from another room into the parlor, where the youth and the oldest daughter of the house were billing and cooing, and blurted out: 'Well, young man, if you're done courting you can have a turn at nursing to get your hand in.—There's another very young girl in the next room.'"

FARMERS' WIVES.—The Detroit *Tribune* says: If there is a busy place in the world, it is the farm house in America during June and July. There are thousands of cases in which one woman does all the labor of the house, besides having the care of one or two children, during the hot, busy season; and we blush to add that in many cases the men are too heedless to render her such assistance as they could easily perform in the mornings, noons, and evenings. It would lighten her toil and lessen her steps if the fruit and vegetables were brought in from the garden in the morning; if the water was drawn from the well for cooking purposes; if the wood was brought close to the stove: if the slops were regularly taken to the compost heap: the skimmed milk brought from the milk room. These chores might all be done by the men and boys during the leisure moments before meals and at the "mornings."

S. Einstein has just returned from New York where he has been for several days selecting one of the choicest stocks of dry goods ever brought to the city. He has full assortments of every kind of goods kept in dry goods houses. In quality and variety of style his stock is not surpassed by any in central Illinois. His prices are also O. Socialistic Troubles in Spain

Reported Communistic Rising in Madrid.

WASHINGTON, Sept. 2.—A Washington dispatch says that the Manitoba question will be brought before the British tribunal in a few days, the court holding special session therefor, and no other causes being tried. Minister Thornton says the British Government is firm in its conviction that the action of its officials were strictly in accordance with the law, and expresses his conviction that the decision of the court will be adverse to the parties now in custody. Court will be held at Fort Garry or Winnepeg. Meanwhile the proposition to release the American prisoners on bail is rejected.

The president will not visit Washington this week, no business of importance demanding his attention. He has been visited at Long Branch the last few days by Secretary Belknap and assistant Secretary Cowan. Secretary Richardson is there now, and matters relating to their respective Departments are disposed of as promptly as if the President were in Washington.

SPRINGFIELD, Sept. 2.—Governor Beveridge has approved the plans for new Illinois Eye and Ear Infirmary building, which is to be located in Chicago on the corner of Adams and Peoria streets. The act authorizing its construction limits the amount to be expended to $45,000, and the architect certifies that the building will cost $44,460. It is to be four stories high, with a basement and sub-basement, built of plain brick, with but little ornamentation.

The State Board of Equalization is broken up into committees, which are stedily at work. Mr. Miles, Chairman of the Committee on Corporations, was in Chicago yesterday, to meet the assessor of Cook county, and learn, if possible how the assessments were made.—Upon investigation he learned that some few corporations had been assessed but not upon the blanks to be used for that purpose, and, being on the blank with other property, the information there given is of little avail. It seems that the reason that a more general assessment was not made was that the Assessors believed that the law requiring it was unconstitutional, and, indeed, this view is held by James P. Root, Esq., the County Attorney of Cook county, who so informed Mr. Miles yesterday. The question as it now stands, is a vexed one, and the committee are somewhat "at sea."

There were, during the month of August, but 35 interments at Oak Ridge Cemetery, including the four who were killed by the accident on the Chicago and Alton Railroad. This is five less than for the same month last year.

The Railroad Commissioners are engaged to-day in auditing their monthly accounts, which include those of the Inspection and Registrar's departments in Chicago. The schedules are at last done and in the hands of the printers. The amount to be realized by the local press for the printing is variously estimated at from $6,000 to $10,000.

NEW YORK, September 2.—Bischoffsheim & Co., the Erie Railway bankers in London, and their agents here, E. H. Bierdman and Co., having failed, by themselves, or through their friends, to settle their accounts, the courts have been invoked to declare a settlement. The property of Bischoffsheim has been attached.

The funds of Kendrick & Co., the alleged swindlers of Sanders & Hardenbergh, by means of forged bonds, have been attached. It appears that Sanders & Hardenburgh's check to the order of J. F. Franklin for $25,000, in payment of the forged bonds, was collected by the Union Trust Company of the Fourth National Bank and put to the credit of Kendrick & Co., which firm on Saturday early drew for checks on the Trust Company for $11,000 and $8,000, but the man attempting to collect them was informed of an irregularity existing, and that the checks could not be paid, since when no one has sought to collect them.

While the late Mayor Kalbfleisch was living a suit was brought against him by Mary Jane Wade for $150,000 damages, for a breach of promise of marriage, and yesterday she obtained, through counsel, an order against his executors to show reason why the trial of the case should not go on.

CANTON, Ill., Sept. 2.—The Fulton county fair grounds, originally costing over $50,000, have been sold for $10,100.

BOSTON, September 1.—A well attended public metting was held to-day, under the auspices of the Boston Grange, at Boston Commercial Exchange. The meeting was called to order by John B. Bartlett, Master of Boston Grange, who stated the principal question was that of cheap transportation of products from the west to the east and reform in railroad management, which was not only necessary, but indispensable.

J. C. Abbott, general deputy of the National Grange spoke of the great revolution that was going on in the country, and urged the importance of putting down this monopoly of railroads. He gave statistics of the earnings of different railroads, necessarily reducing the profit of the farmers to almost nothing. He contended that the cost of freight and travel could be reduced to one-quarter of the present rates, and considered it downright robbery as it is now managed. There should, he claimed, be superior power to combine and consolidate, and the grange is the only organization that has, with any degree of success, met this monopoly.

He was followed by Amasa Walker, who said it should be the duty of congress to interfere and protect the business interests of the country. He spoke of three ways in which the great object could be attained; first, by a great law fixing the rate of travel and freight on all the roads in the country; second, to create new lines between the principal depots of transportation; and third, by purchasing all the roads and placing them under government management, to be leased, which would open all roads to the public at the cheapest rate. He reviewed the different plans, and thought the last most feasible. He considered the question of railroad reform a national question, which would become a political one, and could only be achieved by political action.

NEW YORK, Sept. 3.—A Washington special says Treasurer Spinner has stated that he never saw a better executed counterfeit than the five hundred dollar legal tender note made public yesterday, and that the whole issue of thirty-five million dollars will have to be called in and a new series issued.

To-day another counterfeit $500 greenback was received at the subtreasury, making the third received Saturday. It is believed at the subtreasury that the counterfeit bills come from the west, and that there are but few circulating in New York. The bills have been examined by experts of the American Bank Note Company, and are pronounced by them to be the best counterfeit bills that ever came under their notice.

ST LOUIS, Sept 2.—A dispatch from Okawville, twenty-nine miles from here, on the St. Louis and Southeastern railroad, says: "The cholera, of the true Asiatic type, is raging fearfully. Twenty-three persons died in twelve hours, among them the principal bridge builder of the Southeastern road and three of his children. Five died in one family within three hours. The patients die within fifteen minutes after the attack and turn black immediately.—Medical aid has been sent for from the surrounding towns, and the people are rapidly leaving the town. Those remaining are using disinfectants freely and burning tar in the streets. It is said that no local cause exists for the disease.

KEOKUK, Sept. 2.—Mr. Adams, a prominent citizen of Hamilton, Ill., left Cuba, Ill., for his home on Monday, August 25, and as he has not been seen since, foul play is suspicioned by his family and friends. He was last seen in Bushnell Ill. The agony of suspense threatens to prove fatal to his sorrowing wife.

LONDON, Sept. 2.—Accounts have been received of an accident on the Luxemburg railroad by which 8 passengers were killed and 15 wounded.

A report is current that the municipal authorities of Madrid have raised the red flag of the commune on the town hall, and the military have discovered a secret depot of arms, ammunition and petroleum belonging to the internationals. No confirmatory dispatches have been received.

Socialistic troubles of a serious nature have broken out in Andalusia in the neighborhood of the town of Jimena. The farm laborers have banded together for the purpose of demanding and endeavoring to enforce a division of property. They have burned forty farm houses of those who have opposed them and committed other excesses. Some of the rioters have been arrested

CHICAGO, Sept. 2—The deaths for the week were 314, including eight by cholera.

Detective Simmons was to-day dismissed from the police for accepting a wager of a dozen shirts won from a gambler named Hawkins.

Edward Bean, the Lemont freight conductor, was admitted to bail in $10,000, offered by Jacob Adler, a butcher of Joliet.

Ike Ehrman is happy because his stock of new goods is drawing such crowds to his store, and what is better still they all buy. How can they help it with such an immense stock from which to select, and prices that defy competition.

AN ORDINANCE,

Granting right of way to the Decatur Horse Railway and Carrying Company.

SECTION 1. *Be it ordained by the City Council of the City of Decatur*, That there is hereby granted to the "Decatur Horse Railway and Carrying Company" permission, authority and consent of the City Council of said city to construct, operate and maintain a single or double track for a railway, with all necessary and convenient tracks for turnouts, side-tracks and switches, in all of the following named streets in said city of Decatur, to-wit: Commencing at the junction of East Cerro Gordo street with the depot grounds of the Toledo, Wabash and Western and Illinois Central Railroad Companies; thence west along East Cerro Gordo street to North Main street; thence south along North Main street, across the old public square, to South Main street; thence south on South Main street to Cemetery street, and along Cemetery street to Decatur Greenwood Cemetery. And commencing with another branch of said railway at the junction of North Main and West Eldorado streets; thence west along West Eldorado to the present and future limits of said city. And again, commencing with another branch of said railway at the junction on the old square; running thence east on East Main street to the Illinois Central Railroad, or depot grounds of the Paris and Decatur Railroad; said Railway and Carrying Company shall make sufficient conduits and gutters to carry off all water under said railway tracks, and which would be carried off by proper conduits and gutters if said railway tracks were not constructed, and shall at all times maintain and keep such conduits and gutters in good repair so long as it may use the grade fixed by said city of Decatur.

SEC. 2. No locomotive or engine propelled by steam shall ever be used upon any of said railways within the limits of said city of Decatur, and the carriages used thereon shall be of neat style, and shall be propelled by other than animal power; *provided* That the City Council shall never restrict the said company from running such number of carriages or cars, and at such time, as said company shall think proper; *provided, also*, The said company shall not permit its cars to stand at the intersection of streets in such a manner as to obstruct the same, nor to run their cars at a greater rate of speed than 8 m., making close connections for Cleveland, Columbus, Cincinnati, New York, and all points East and South.

CONSUMPTION!

AND ITS CURE!

Victims of this awful disease are found in every neighborhood, in almost every house. For them and for their friends, we have tidings of good cheer and hope—the announcement of a most important discovery, firmly based upon common sense and reason, by which the terrible malady is positively controlled, and its victims are restored to health.

WILSON'S

Carbolated Cod Liver Oil

Is not a secret empirical nostrum. It is a happy combination of two remedies known to physicians everywhere as the best means of combating consumption. This combination is Mr. Willson's discovery, and is founded upon the following

SOUND REASONING.

Consumption is decay. Soothing, expectorant remedies are only useful as palliatives, they do not reach the cause—they do not stop the decay. Tonic medicines strengthen the life forces and prolong the battle, but the decay goes steadily on, and sooner or later the victim must yield. Climatic changes are sometimes good, but they seldom wholly cure. In short, the very first thing to be done is to STOP THE DECAY; then apply the restorative, tonic and strength giving treatment. Think a moment. The lungs are decaying—tubercles, ulcerations cavities and deposits of poisonous matter (pus) are forming. The circulation carries this poison all over the body. Wasting, loss of appetite, enervation, night sweats, and all the terrible symptoms appear; is it worth while to doctor the *symptoms*, which are merely the results, while the *decay*, which is the cause, is eating up the life springs?

These two things are well known by the best physicians:

1st, *Carbolic acid positively arrests Decay.* It is the most powerful antiseptic in the known world. Even dead bodies are preserved by it. Entering into the circulation, it at once grapples with corruption, and decay ceases. It purifies the sources of disease.

2d, *Cod Liver Oil is Nature's best assistant* in resisting Consumption. It is at once a food, a tonic, a purifier, and a healer. It braces up and supplies the vital forces, feeds the wasted system, and enables nature to regain her foothold. For these purposes nothing can compare with Cod Liver Oil.—This is the theory of

WILLSON'S

CARBOLATED COD LIVER OIL,

As described fully in the inventor's circular, which will be mailed, upon application, to any address.

We cannot afford space to tell the whole story here, or to give the numerous certificates from eminent physicians and well known citizens testifying to the absolutely wonderful results flowing from this great discovery. Suffice it to say, it is curing thousands who supposed themselves to be at death's door.

Willson's Carbolated Oil is scientifically prepared with the purest Carbolic Acid, so combined as to be entirely harmless, with

Sweet Norwegian Cod Liver Oil

from the celebrated fisheries at Aalesund (Norway) pronounced by physicians the most delicate, efficient Cod Liver Oil in the world.

It is easily taken, tolerated by the weakest stomachs, digests readily, never becomes rancid, and is almost entirely free from the usual disagreeable characteristics of Cod Liver Oil.

For every use of Cod Liver Oil Mr. Willson's discovery is of the greatest value.

For the safe internal administration of Carbolic Acid, Mr. Willson's method of combining it with Cod Liver Oil is absolutely necessary.

WILLSON'S

Carbolated Cod Liver Oil!

Is a Specific and Radical Cure for

CONSUMPTION

And Scrofulous Diseases.

Remember the name, "Willson's Carbolated Cod Liver Oil." It comes in large wedge-shaped bottles, bearing the inventor's signature, and is sold by the best druggists.

Prepared by J. H. WILLSON, 83 John st., New York.

Sold by all druggists.

CITY DEPARTMENT.

...Laid—the dust, for to day.

...The young man who was taken suddenly sick at Morrison's boarding house is recovering.

...John Dillon at the opera house to-night.

...Proctor & Gamble's Mottled German soap, at Imboden's.

...Now that the rain has held off so long, we think the desire for its postponement another week on account of the fair is very general. Clouds look moist to-day, and we shouldn't wonder if we might get a repetition of last year's experience an the fair business.

...The sprinkling of the road to the fair ground on Monday night helped the matter some yesterday, but there was a good deal of dust in the afternoon, notwithstanding. The rain to-day, however, will probably settle dust for the entire week.

...Ike Ehrman's stock of gents' furnishing goods is complete in every department. His custom shop also turns out the best fits of any house in the city. All suits warranted to fit.

...Mr. E. C. Mathony, traveling agent and correspondent of the Springfield *Journal*, paid us a visit this morning. Mr. M. spoke, in terms of the highest praise, of the growth and prosperity of Decatur.

Died,—Yesterday morning, of whooping cough, JOSEPH KOEHLER ANTRIM, adopted son of Thomas L. and Sophie Antrim, aged 2 years and 11 months.

Funeral from the residence of the parents, No. 86 East Eldorado street, tomorrow, (Thursday), at 3 o'clock, P. M.

A Pleasant Episode.—On Monday evening as the Wallack Theatrical Combination was going through with its evening entertainment at the Opera House in Bloomington, at a proper time, Mr. Smith, the proprietor of the building, stepped upon the stage, and in behalf the many friends of Mr. Wallack, presented that gentleman with a beautiful gold watch and chain, costing two hundred and fifty dollars.

Quiet.—Peace and good will prevail to an *alarming* extent these days. The Justices have to depend upon civil suits to occupy their time, and the boys in blue have hardly enough to do to keep the rust off. They go dog-hunting for diversion, and quite a number of canines have been made to bite the dust lately. Let the good work go on until every snarling purp shall help to enrich the soil.

Geo. F. Wessels is receiving his stock of fall goods and is prepared to accommodate his numerous customers with any style and quality of goods they may desire. A part of his summer stock is yet on hand, which he is selling at cost, to make room for fall and winter goods. If you want great bargains call in at his store, North Water street. Particular attention paid to custom work, and good fits guaranteed.

Theatrical.—The Wallack Theatre Combination opened last evening at the Opera House, with a good audience.—Dillon was the same old John, and played his parts to perfection. We doubt if he has an equal in the country as a comedian. The other members of the troupe did their work in fine style, and the entertainment was a highly enjoyable one.—The bill for to night is "Everybody's Friend," and "Nicodemus Nobbs." These popular plays will doubtless attract a large audience.

Caution.—We again call attention to the frequent attacks of an aggravated form of cholera-morbus, which are occurring almost daily in the city. This we do, not to excite alarm, but to awaken caution among our people as to the matter of eating and drinking. Some of the attacks to which we refer have proved fatal and several others nearly so. Place reason on guard, and let appetite be held under its control.

The Same Thing.—Rain commenced this morning just about the same time in the day that it commenced on Wednesday last year on fair week. Whether or not the clerk of the weather is to give us the same programme as that of last year remains to be seen. If the rain quits now what has fallen will add to the comfort of those attending the fair without materially interfering with the exhibition.

Pike, the Jeweler, keeps the best Spectacles in the city, and sells them at a reasonable price. [Sep 1 d1m

County Fair.—The fair opened yesterday and the programme for the day was carried out. The entries of stock are about the same as last year, numerically.

The largest herds of cattle are entered by J. H. Pickrell, of Harristown, Mr. Elliott, of Harristown, and the Taylor Bros., of Blue Mound.

The show of horses is good, and we are told that some of the best trotting stock in the country is to be here.

The entries of fruit are very meagre, owing probably to the scarcity that prevails through the county.

The vegetable show is also comparatively light.

The ladies are doing well in the needle-work department, and also in the line of canned and preserved fruits and jellies.

We give below the list of premiums awarded yesterday:

Best cow over 3 years old, "Ada," belonging to Geo Elliott, Harristown,	$10
Best heifer, two years old and under, "Rose," owned by Jos. McGuire,	10
Best cow, 1 year and under 2, "Flora," owned by F. N. Ewing, Decatur,	10
Best calf under 1 year, "Daisy," owned by F. N. Ewing, Decatur, Ill.,	10
Best bull of any age, "Grand Mogul," owned by V. Barber, Decatur, Ill.,	10
Best cow, over 3 years, "Dollana," owned by V. Barber, Decatur, Ill.,	10

Home Again.—Frank Hays and family are back from their pleasure trip to Minnesota, and report a fine time and improved health.

James Forester and family have returned after an absence of about three months. They have been taking rest and recreation at Green Lake, Dartford, Wis.

Mr. Hildebrandt and family are back from their summer tour.

Important Purchase.—The Paris and Decatur Railroad Company has bought the old Renshaw property, north of the Toledo, Wabash and Western railroad, for eight thousand dollars.

Coming Back.—We are glad to greet our friends and fellow-citizens as they return from their summer vacations and appears in their places in business circles. So far as at present advised we do not know that any accident has occurred to any of them, and they have been fortunately exempt from sickness. Indeed they seem to come home with improved health. We are glad with them in view of their safe return, and trust that the highest degree of prosperity may attend them in their business pursuits.

Shipments of Grain.—Haworth & Simpson shipped from Decatur, over the Paris and Decatur railroad, forty-nine car loads of corn, in the month of August; and thirty-nine car loads from Lake City, over the same route in the same time.

Fair Report.—To-morrow we shall give a full account of what is done at the fair ground to-day. We presume the morning shower may make some slight changes in the day's doings. The few premiums awarded yesterday will be found in the report we give to-day, of yesterday's proceedings. To morrow there are to be several important races, the time for which may be learned from the published programmes. Turn out, everbody, and fill up the grounds.

Leg Broken.—This morning about 11 o'clock Mr. J. E. Moffett, in the employ of the American Express Company, drove his team up in front of Quinlans' store, either to take on or deliver some goods. He jumped from his wagon to the sidewalk and his weight broke a hole through the rotten plank upon which he alighted, and his left leg went through, fracturing the knee-pan. He was taken into Quinlans' store for a short time until a team could be procured to take him to his residence. Drs. Chenoweth & Walston were called to adjust the fracture.

Masonic.—The regular communication of Macon Chapter, No. 21, R. A. Masons, will be held at Masonic Hall this (Tuesday) evening, at 7½ o'clock, sharp. business of importance to be transacted—a full attendance is earnestly desired.

Constipation.—The peculiar virtues of Dr. Price's Cream Baking Powder is shown in cases where there is a tendency to constipation, food in which it is used is more easily digested and acts as a natural aperient to the bowels, overcoming acidity of the stomach and flatulency. Let those who are dyspeptic eat food made with Dr. Price's Cream Baking Powder and see how easily it is digested. We know of this powder and also Dr. Price's Special Flavorings, Lemon, &c., and do not hesitate to endorse them. [3d2w]

Correct Time.—If you want a No. 1 watch or clock, to keep correct time, and peace in the family, call at J. L. Knieper's. You will also find a complete stock of Jewelry, Silver and Plated Ware, as well as a good assortment of Musical Instruments, all of which will be sold at the very lowest prices. No. 10 Water street.

Notices of the Press:

The ever-increasing circulation of this excellent monthly proves its continued adaptation to popular desires and needs.—Indeed, when we think into how many homes it penetrates every month, we must consider it as one of the educators as well as entertainers of the public mind, for its vast popularity has been won by no appeal to stupid prejudice or depraved tastes.—*Boston Globe.*

The character which this *Magazine* possesses for variety, enterprise, artistic wealth and literary culture that has kept pace with, if it has not led the times, should cause its conductors to regard it with justifiable complacency. It also entitles them to a great claim upon the public gratitude. The *Magazine* has done good and not evil all the days of its life.—*Brooklyn Eagle.*

Ayer's

Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this special remedy for all diseases of the Throat and Lungs. A test trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that CHERRY PECTORAL will and does relieve and cure the pulmonary disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of **Consumption**, once by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy it is adequate, on which the public may rely for full protection. By curing **Coughs**, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attacks of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unsafe to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, CHERRY PECTORAL is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome **Influenza** and painful **Bronchitis**, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle as perfect as possible. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures as memorable as the greatest it has ever effected.

PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass.,

Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

Ayer's Cathartic Pills,

For the relief and cure of all derangements in the stomach, liver, and bowels. They are a mild aperient, and an excellent purgative. Being purely vegetable, they contain no mercury or mineral whatever. Much serious sickness and suffering is prevented by their timely use; and every family should have them on hand for their protection and relief, when required. Long experience has proved them to be the safest, surest, and best of all the *Pills* with which the market abounds. By their occasional use, the blood is purified, the corruptions of the system expelled, obstructions removed, and the whole machinery of life restored to its healthy activity. Internal organs which become clogged and sluggish are cleansed by *Ayer's Pills*, and stimulated into action. Thus incipient disease is changed into health, the value of which change, when reckoned on the vast multitudes who enjoy it, can hardly be computed. Their sugar-coating makes them pleasant to take, and preserves their virtues unimpaired for any length of time, so that they are ever fresh, and perfectly reliable. Although searching, they are mild, and operate without disturbance to the constitution or diet or occupation.

Full directions are given on the wrapper to each box, how to use them as a Family Physic, and for the following complaints, which these *Pills* rapidly cure:—

For **Dyspepsia** or **Indigestion**, **Listlessness**, **Languor**, and **Loss of Appetite**, they should be taken immediately to stimulate the stomach, and restore its healthy tone and action.

For **Liver Complaint** and its various symptoms, **Bilious Headache**, **Sick Headache**, **Jaundice**, **Green Sickness**, **Bilious Colic** and **Bilious Fevers**, they should be judiciously taken for each case, to correct the diseased action, or remove the obstructions which cause it.

For **Dysentery** or **Diarrhœa**, but one mild dose is generally required.

For **Rheumatism**, **Gout**, **Gravel**, **Palpitation of the Heart**, **Pain in the Side**, **Back**, and **Loins**, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For **Dropsy** and **Dropsical Swellings**, they should be taken in large and frequent doses to produce the effect of a drastic purge.

For **Suppression**, a large dose should be taken, as it produces the desired effect by sympathy.

As a *Dinner Pill*, take one or two *Pills* to promote digestion, and relieve the stomach.

An occasional dose stimulates the stomach and bowels, restores the appetite, and invigorates the system. Hence it often prevents sickness where no serious derangement exists. One who feels tolerably well, often finds that a dose of these *Pills* makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

The Diamond Glasses,

MANUFACTURED BY

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the world to be the **MOST PERFECT**, natural, artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality, of all materials used for that purpose.

THEIR FINISH AND DURABILITY CANNOT BE SURPASSED.

CAUTION.—None genuine unless bearing their trade mark stamped on every frame.
